50X1-HUM

1. The propaganda "flying squads" dispatched to various parts of the country having failed to produce the required results (since many of them are strangers to the areas to which they are sent), the Agitprop Section of the Yugoslav Communist Party Central Committee has issued instructions to all regional Communist Parties for the work of these "flying squads" to be dovetailed with that of the Technical Clubs of the factories and the Communal Clubs of the countryside.
2. The Central Committee of the Yugoslav Communist Party points out that coordination has yielded good results in Slovenia, where Technical Clubs exist in all industrial centers such as Litostroj, Pletenina-Ljubljana, Celuloza-Krsko, et cetera. (There are 95 such clubs in Slovenia with a membership of 6,000).
3. The importance attached to this coordination by the Yugoslav Communist Party is explained by the Party's "desire to put Yugoslav workers in the picture as regards the present situation".
